## Education

**Full Stack Development**  
Masai School  
December 2023-present

**Electronics and Communication Engineering, B.Tech**  
Jodhpur Institute of Engineering and Technology  
July 2011 - July 2015

## Technical Skills

- Express.js
- React
- JavaScript
- RESTful APIs
- Node.js
- MongoDB
- HTML5
- Git

## Soft Skills

- Attention to Detail
- Effective Communication
- Problem Solving
- Adaptability

# Meena Gang

## Full Stack Web Developer

## Professional Summary

Dynamic Full Stack Web Developer with robust skills in the MERN stack and a solid grasp of HTML, CSS, and RESTful API design. Highly adept at leveraging Generative AI and swiftly mastering new technologies to elevate development workflows, ensuring exceptional software quality and effective collaboration.

## Experience

- |               |           |                      |
|---------------|-----------|----------------------|
| <b>Little</b> | Frontend  | March 2023 - October |
| <b>Little</b> | Developer | 2023                 |
- Designed and implemented user-friendly web interfaces to improve user experience and engagement.
  - Collaborated with designers and developers to understand project requirements and deliver functional web applications.

## Projects

- Snapdeal Clone** [Live Demo Link](#) [Github Repo Link](#)
- JavaScript React Redux Git Chakra-UI
- CSS3 HTML5 Node.js MongoDB Express.js
- RESTful APIs
- Replicated Snapdeal's e-commerce functionality with a fully functional stack.
  - Built a responsive frontend using React and Chakra UI.
  - Developed a robust backend with Node.js and Express, and managed product details, user information, and orders via MongoDB.
  - Deployed the backend ensuring a seamless user experience.

**H&M Clone** [Live Demo Link](#) [Github Repo Link](#)

- JavaScript React Git Redux
- Responsive Web Design CSS3 HTML5
- Developed user authentication features such as Sign up and Login using JavaScript and React, enhancing security and user experience.
  - Implemented an image carousel and product filtering/sorting mechanisms in React.js for better product browsing.
  - Designed and developed a scalable cart functionality using React and Redux, providing smooth user interactions.
